WHEATFEED MEAL/PELLETS

PRODUCT DESCRIPTION

By product of flour manufacture. It consists principally of fragments of the outer skins and of particles of grain from which less of the endosperm has been removed than in wheat bran. This material is available as meal or in a pelletised form. For every tonne of wheat processed, approximately 20kg of wheat feed is produced. Conforms to the relevant food laws and regulations in force in the UK at the time of delivery.

SPECIFICATION NON CONTRACTUAL

Crude Fibre 9%

Crude Protein 17.5%

Moisture 13.5-15.0%

NUTRITIONAL BENEFITS

Highly digestible. Ideal for ruminants and pig feed also horse feed. A good source of phosphorous, but low in calcium, sodium and vitamins.

STORAGE AND SHELF LIFE

When product is stored in a cool and dry environment and ventilated frequently, the shelf life is approximately 6 months.

COUNTRY OF ORIGIN

This material is made from predominately UK grain.

It is possible that it also contains wheat from other EU countries and Canada.
